## Notice on the Postponement of 5th Asia Conference on Power and Electrical Engineering (ACPEE 2020)

Dear Researchers, Speakers and Colleagues,

Considering the current situation of COVID-19, to provide a safe and comfortable academic exchange environment for all participants, the conference committee has decided to postpone the 5th Asia Conference on Power and Electrical Engineering (ACPEE 2020) from **April 9-12, 2020** to **June 4-7, 2020**. Please read the following details:

1. Currently, the COVID-19 has not been effectively controlled globally. Participants will face safety risk if ACPEE 2020 is held as planned. The coronavirus is predicted to be effectively controlled by the end of April, we decided to postpone the conference to June 4-7 in Chengdu. We will take any possible corresponding measures to ensure the safety of participants during the conference.
2. Considering that many of authors in China have not yet returned to work or school, the progress of registration and final paper preparation are affected. Postponing the conference will give the author more time to prepare the final paper, complete the registration, and prepare the materials for the conference.
3. The conference proceeding is previously scheduled to be published by IEEE at the end of May. We will actively discuss with the IEEE publisher to speed up the publication progress and make the proceeding available in IEXPLORE in June 2020. We will put all our efforts to minimize the impact of the postponement on the publication and retrieval of the proceeding.
4. Our conference has prestigious speakers, who will be well prepared to present wonderful and thought-provoking speeches for our participants.

ACPEE committee will be fully prepared to meet you and we believe that such a postponement is worth waiting. The committee will make sure ACPEE will be an unforgettable moment for all participants!

If you have any question or need any assistance regarding the conference, please feel free to contact us.
